

New

uni X-MPB

uni-chains is pleased to announce the newest member of our plastic modular belts product range for the meat industry

- The hygienic choice for the meat industry

modular BELT

uni X-MPB Pitch 63.5 mm (2.5 in.)

A new eXtra large belt innovation

uni-chains is pleased to announce the newest member of belt products for the meat industry. The belt allows for higher load/impact without breakage due to strong, heavy duty design.

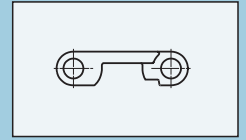

- uni X-MPB is available in belts widths from 75 mm (3.0 in.) to 3019 mm (118.8 in.)
- uni X-MPB sprockets are available with 6, 8, 10 and 13 teeth

Advantages of uni Modular Plastic belts:

- Allows for higher load/impact without breakage
- Easy to clean - reduced down-time for cleaning
- Unique locking system - faster, simpler maintenance
- Better operational efficiency by reducing down time for maintenance and cleaning
- Unique sprocket engagement - higher product load capability/longer conveyors
- FDA approved materials and USDA accepted plastic modular belt construction

uni belts for the meat industry

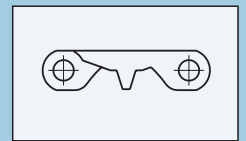

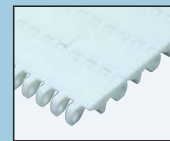

uni CNB

Straight running
Pitch: 25.4 mm (1.00 in.)

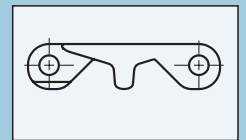

uni S-MPB

Straight running
Pitch: 25.4 mm (1.00 in.)

uni MPB-C

Straight running
Pitch: 50.8 mm (2.00 in.)

uni X-MPB

Straight running
Pitch: 63.5 mm (2.50 in.)

Application guidelines

SLF/LF/D/NL-POM • PE = Polyethylene

Belt style	Belt pitch	Shackle lines	Evisceration lines	Offal conveyors	Cutting lines	Deboning lines	Fat/trim lines	Pacing lines	Bone conveyors	Elevators/incline conveyors	Breeding conveyors	Shrink wrap conveyors	Tray pack lines	Box/tote handling	Box/tote incline/decline conveyors	Freezers in feed/out feed	General conveyance straight	Metal detector
